8. Market how supplied.
9. Progress of agricultural operations, state of standing crops, prospects and probable out-turn of the harvests, serious damage done to crops by insects or other natural calamities.
10. Prospects of season, tracts in which rainfall has been insufficient, areas affected by scarcity, number of people under relief and state of food stock.
11. Remarks on the condition of agricultural stock, failure of pasturage of fodder, etc.

BANGALORE.

8. Well supplied.
9. *Standing Crops.*—(1) Wet.—Paddy and sugarcane are fairly in good condition.
(2) *Dry.*—Ragi, Avare, Thogari, Horsegram are fairly in good condition. Dry crops sown late require some more rains. Dry crops in certain places suffered on account of failure of rains in August and September 1951, when crops were tender. Late rains are of little help to these crops.
(3) *Availability of Water.*—There is fairly sufficient store of water in tanks of Bangalore, Doddballapur, Kankanhalli, Magadi, Ramanagaram, Anekal Taluks and Kanva Reservoir in Channarayana Taluk. Water is not sufficient in other tanks of Channarayana Taluk and some tanks of other Taluks.
Harvest.—Groundnut is being harvested in Bangalore North and Magadi Taluks. Harvest of Ragi has commenced in certain parts of the District.
10. Public health is generally good. Cattle are generally healthy. Water and fodder are available.
11. Coolies find sufficient labour.

KOLAR.

8. Moderately supplied.
9. (1) *Seeds sown.*—Jola is reported to have been sown in Siddaghatta Taluk.
(2) *Standing crops.*—The condition of food crops such as Ragi and Paddy is not satisfactory. Wet fields are being ploughed and green manure being transported and the fields are made ready for sowing vaisakhy paddy in lands below Kolar and other tanks, that have received water.
(3) *Crops harvested.*—Nil.
10. There was no rain in any of the taluks in this District during this week. The latest showers on 18th and 19th are helpful to standing crops such as Kulthi Avare, and Thogari, which have not already completely dried up.
11. People and cattle are reported to be generally healthy but for prevalence of small pox and black-quarter for cattle in some parts of Bagepalli Taluk. Preventive measures have been taken to check the spread of the epidemics by the Animal Husbandry and Public Health Departments.

TUMKUR.

8. Fairly well supplied.
- Seeds sown.*—Nil.
9. *Standing crops.*—Koratageri-Tumkur—Ragi, Paddy, Jola, Avare, Thogari, stunted poor crop not exceeding 6 annas.
Gubbi.—Ragi, Avare, Thogari, Jola, Horsegram, Paddy, Sugarcane are fair except in Chelur Hobli—Tiptur, Kunigal, Turuvekere, Chiknaikanahalli, Taluk—Ragi, Jola, Horsegram, Thogari, etc., are fair. Sira, Pavagada and Madhugiri—Ragi, Groundnut, and Horsegram; Ragi is practically lost, not expected to exceed 4 annas except in Gowdgere Hobli. All the dry crops are reported to be in need of urgent rains. Wet crops under tanks are fairly good, but water is being exhausted; it is feared may not suffice the full term, so that there is fear of some of these crops being lost.
Horsegram in Chiknaikanahalli Taluk and Dry crops in parts of Turuvekere and Pavagada Taluks are reported to be withering for want of rains. The rainfall received so far is insufficient to the standing dry crops. Further rains are very necessary. Sugarcane in parts of Gubbi and Kunigal Taluks is reported to be good.
Crops harvested.—Paddy in parts of Tumkur, Chiknaikanahalli, Gubbi and Kunigal Taluks and Irrigated Ragi in parts of Tumkur, Madhugiri, Chiknaikanahalli, Gubbi and Pavagada taluks and groundnut in parts of Gubbi Taluk.

10. *Public Health.*—Public Health is generally good, except for the prevalence of Plague in Jodi Hosahalli and Aralikere Villages and rat-fall in Bevinahalli village of Chiknaikanahalli Taluk and Kyathasandra of Tumkur Taluk. Preventive measures are reported to have been taken to check the spread of the epidemic.

11. *Cattle.*—Cattle are reported to be generally healthy except for the prevalence of Black-quarter in Doddahedighalli Village in Gubbi Taluk and in Balasamudra Village of Pavagada Taluk. Needful action is reported to have been taken to check the spread of the epidemic. Fodder and water are available. The State Forests have been thrown open for free grazing. Labour is available for agricultural classes.

MYSORE.

8. It is reported that the markets are normally well supplied in all the taluks of the District during the week.
Seeds sown.—Nil.

9. *Standing crops.*—Such as paddy, ragi, avare, cotton, sugarcane, horsegram, togari and pulses are reported to be generally in good condition and are improving after recent rains. But full ragi crop cannot be realised due to want of timely rainfall. It is reported that the standing paddy crop in parts of T. Narasipur Taluk is affected by a kind of pest known as Gall Fly (ಕೊಳೆದ ಕೀಟ). The Agricultural Department are taking necessary measures to check its spread. It is further reported that paddy in one village of Krishnarajanagar Taluk is affected by Grasshoppers. The Agricultural Department are taking necessary measures to check its spread.

Crops harvested.—It is reported that ragi is harvested in T. Narasipur, Mysore, and Chamarajanagar Taluks, groundnut in Gundlupet, Hunsur, Mysore, Chamarajanagar Nanjangud, Heggaddevanakote and T. Narasipur Taluks, chillies in Periyapatna Taluk and cotton in Hunsur and Nanjangud Taluks.

10. (1) Prospects of the season are improving after recent rains.

(2) There was fairly good rainfall in Periyapatna taluk and it was scanty in Gundlupet, Heggaddevankote taluks and there was no rainfall in other taluks.

(3) Both the cool and agricultural classes are finding sufficient employment all over the District.

(4) Sufficient quantities of foodgrains are made available all over the District.

(5) Public health is reported to be generally good except for the prevalence of plague in a few villages of Nanjangud, Gundlupet, Heggaddevankote and Mysore taluks. Necessary preventive and remedial measures are being taken to check the spread of the epidemic.

11. Cattle are reported to be generally healthy. Sufficient quantities of water and fodder are available all over the District.

MANDYA.

8. Well supplied.
9. The standing crops such as sugarcane in Visvesvaraya Canal Area and paddy in all the taluks of the District are reported to be in good condition. The dry crops such as ragi have failed in large extents in all the taluks of the District due to failure of timely rainfall in previous months. The surviving dry crops are reported to be in good condition but proper yield cannot be expected.
10. The prospects of the season are reported to be satisfactory.
11. The public health is reported to be generally good except for the prevalence of small-pox in Hebbakavadi Village, Mandya Taluk. Preventive measures are reported to have been taken to check the spread of the disease. Cattle are reported to be healthy in all the taluks. Fodder and water are available in all the taluks in sufficient quantities.

HASSAN.

8. Well supplied.
9. Standing crop like paddy under river channels, sugarcane, horsegram, chillies are reported to be fair. Doddaragi crop in Arsikere and Chennarayana requires rains. Doddaragi in Belur and cotton in Arsikere are being harvested.
10. The prospects of the season is not good though not hopeless. Rains are required for doddaragi crop and also for paddy crop under tanks.
11. Cattle are generally healthy except for a few cases of Foot and Mouth disease in Alur Kasaba Hobli for which

Veterinary authorities are reported to have taken necessary action. Water and fodder are available.

SHIMOGA.

8. Well supplied.

9. The standing crop in all the taluks except for the paddy crop in some parts of Chennagiri Taluk is generally fair. Paddy in non-channel areas and ragi in general in Bhadravati Taluk are reported to have not been in good condition. Paddy in Makkigadde area in Tirthahalli Taluk is reported to have not improved. Ragi and jola in Chennagiri Taluk; ragi in Honnali Taluk; paddy, ragi and groundnut in Shikaripur Taluk; paddy in some parts of Sagar, Hosanagar and Thirthahalli taluks are being harvested. Bengalgram in Honnali Taluk is being sown.

10. Prospect of the season was generally good. More rains are required for the standing crop in Shikaripur, Chennagiri and Honnali Taluks.

One case of Cholera is reported, in Honnali Taluk. Mass inoculation has been done. Fresh cases have been reported to-day.

11. Water and fodder were available.

CHIKMAGALUR.

8. Markets were fairly well supplied. Prices were high.

9. (1) *Standing crops.*—Paddy, ragi and sugarcane in Chikmagalur Taluk; ragi, jola, coriander, horsegram, paddy, til, avare, togari, sugarcane and groundnut in Kadur Taluk; paddy, ragi, greengram, bengalgram, blackgram, wheat, sugarcane, horsegram and coriander in Tarikere Taluk; paddy in Mudigere and Koppa Taluks and in Sringeri Sub-Taluk; paddy and sugarcane in N. R. Pura Sub-Taluk were the standing crops.

(2) *Seeds sown and transplantation made.*—Nil.

(3) *Crops harvested.*—Paddy and ragi in Tarikere Taluk; paddy, ragi and and save in Kadur Taluk were harvested during the week under report.

10. Prospects of the season are reported to be generally good. Standing crops in Tarikere and Kadur Taluks require urgent rains, while the crops in Madhugere Taluk, require some more rain for better yield.

11. Public health is reported to be generally good.

Cattle are generally healthy except for the prevalence of cattle disease among the cattle in Hemmakki Village in Mudigere Taluk and Rinderpest among sheep in Ajjampura surrounding villages. Water and fodder are available.

CHITALDRUG.

8. Markets are well supplied except controlled commodities.

Sowing.—Sowing of bilijola, cotton and kadale in Chitaldrug Taluk has been completed. Karthiki paddy in Challakere Taluk; onion in bagayat land in Molakalmuru Taluk; Bengalgram in Holakere Taluk is reported to be in progress.

9. *Standing crop.*—The condition of the standing crops such as groundnuts, horsegram in Chellakere; jola, navane, and saje, horsegram, castor, cotton, pulses in Malakalmuru Taluk and the standing crop in Harihar Taluk are reported to be withering for want of rains. The condition of the crops such as bilijola, ragi and paddy in Chitaldrug Taluk; Kartiki paddy in irrigation wells, nalas and tanks in Challakere Taluk; paddy, ragi, jola, navane, saje, haraka, ragi, cotton and sugarcane in Hiriyur Taluk; ragi, cotton, bilijola, navane, haraka and bengalgram in Holakere Taluk; kadle, horsegram, cotton in Jagalur Taluk; ragi, save saje, navane, paddy in Hosadurga Taluk; and ragi, jola, cotton, saje, paddy, horsegram in Davangere Taluk are reported to be good but are in urgent need of rains.

Harvesting.—Mungar jola in Chitaldrug Taluk; dodda-ragi in Chellakere Taluk; sugarcane in Hiriyur Taluk; jola, ragi, paddy and saje in Molakalmuru Taluk; ragi and navane in Holakere Taluk; groundnuts, jola, navane and saje in Jagalur Taluk; save and navane in Hosadurga Taluk; groundnut, ragi, navane and jola in Harihar Taluk; groundnut and kesari jola in Davangere Taluk are being harvested.

10. Cooly classes are finding sufficient labour all over the District.

The cattle are reported to be generally healthy except for prevalence of "Blackquarter" in Doddauarthi in Challakere Taluk. The authorities of the Veterinary

Department are reported to have been addressed to take immediate preventive measures. The public health is generally good except for prevalence of "Small pox" in few villages in Chellakere Taluk; "Cholera" in Kalur, Gopanahalu, Hirithogaleri and Chickthogaleri villages in Davangere Taluk and in few villages in Harihar Taluk and reported ratfall at Bagur village in Hosadurga Taluk. The authorities of the Health Department are reported to have been addressed to take immediate preventive measures.

Water and fodder are available for the present.

BANGALORE,

4247 Dated 16th November 1951.

N. V. SIDDALINGAPPA,

For Director.

MYSORE STATE DEPARTMENT OF PUBLIC HEALTH.

NOTE ON THE STATE OF PUBLIC HEALTH IN MYSORE STATE, WEEK ENDED 8TH NOVEMBER 1951.

A total of 20 attacks with 8 deaths from Plague was returned from 8 villages in 5 taluks in 3 districts during the week against 30 attacks with 12 deaths in the previous week. The Cities of Bangalore, Mysore and Kolar Gold Fields reported free from Plague. Comparative figures for the corresponding week in 1950 and 1949 were 39 attacks with 16 deaths and 29 attacks with 15 deaths, respectively.

A total of 3 attacks with 1 death from Small-pox were reported from Mysore City and Malavalli Taluk.

Thirteen attacks with 4 deaths from cholera were reported from the Cities of Bangalore and Kolar Gold Fields and from Harihar Taluk.

The State remained free from Influenza and Relapsing Fever.

The total mortality for Bangalore Corporation amounted to 238 (61 in hospitals) for 7 days representing a calculated death-rate of 15.7 (11.6 excluding hospital deaths) per mille of population (annual basis) as against 19.8 (14.0 excluding hospital deaths) for the corresponding week of last year. Classified according to causes, the deaths numbered 1 under Malaria, 2 under Typhoid, 4 under Other Fevers, 37 under Dysentery and Diarrhoea, and 194 under All Other Causes. The reported mortality was very low.

The total mortality for Mysore City was 106 (22 in hospitals) for 6 days representing a calculated death-rate of 25.7 (20.4 excluding hospital deaths) per mille of population (annual basis) as against 14.1 (11.1 excluding hospital deaths) for the corresponding week of last year. Classified according to causes the deaths were: small-pox 1, Malaria 2, Other Fevers 18, Dysentery and Diarrhoea 9, and All Other Causes 76. The reported mortality was low.

There were 49 deaths (6 in hospitals) for 7 days from all causes in Kolar Gold Fields equivalent to a calculated death rate of 15.9 (13.9 excluding hospital deaths) per mille of population (annual basis) as against 14.2 (10.1 excluding hospital deaths) for the corresponding week of last year. Classified according to causes the deaths numbered 1 under Cholera, 4 under Other Fevers, 13 under Dysentery and Diarrhoea, and 31 under All Other Causes. The reported mortality was very low.

NOTE ON THE STATE OF PUBLIC HEALTH IN MYSORE STATE, FOR THE WEEK ENDED NOVEMBER 15, 1951.

A total of 48 attacks with 16 deaths from Plague was returned from 19 villages, in 11 taluks, in 4 districts during the week against 20 attacks with 8 deaths in the previous week. The Cities of Bangalore, Mysore and Kolar Gold Field reported free from Plague. Comparative figures for the corresponding week in 1950 and 1949, were 4 attacks with 0 deaths and 36 attacks with 17 deaths, respectively.

A total of 15 attacks with 4 deaths from Small-pox were reported from Bangalore Corporation and from the taluks of Challakere, Malavalli, Maddur and Mandya.

Thirty-four attacks with 10 deaths from Cholera were reported from the Cities of Kolar Gold Field, and Davangere and Shimoga Town and from the taluks of Bhadravathi, Davangere, Heggadvankote and Honnali.

The State remained free from Influenza and Relapsing Fever.

The total mortality for Bangalore Corporation amounted to 257 (68 in hospitals) for 7 days representing a calculated death-rate of 16.9 (12.4 excluding hospital deaths) per mille of population (annual basis) as against 22.0 (14.0 excluding hospital deaths) for the corresponding week of last year. Classified according to causes the deaths numbered 1 under Malaria, 1 under Typhoid, 5 under Other Fevers, 33 under Dysentery and Diarrhoea and 217 under All Other Causes. The reported mortality was very low.

The total mortality for Mysore City was 70 (11 in hospitals) for 5 days representing a calculated death-rate of 20.6 (17.4 excluding hospital deaths) per mille of population (annual basis) as against 23.1 (17.6 excluding hospital deaths) for the corresponding week of last year. Classified according to causes the deaths were: Malaria 2, Other Fevers 10, Dysentery and Diarrhoea 8 and All Other Causes 50. The reported mortality was low.

There were 47 deaths (19 in hospitals) for 4 days from all causes in Kolar Gold Field equivalent to a calculated death-rate of 26.7 (15.9 excluding hospital deaths) per mille of population (annual basis) as against 12.6 (5.5 excluding hospital deaths) for the corresponding week of last year. Classified according to causes, the deaths numbered 1 under Cholera, 1 under Malaria, 6 under Other Fevers, 5 under Dysentery and Diarrhoea and 34 under All Other Causes. The reported mortality was low.

T. CHANDRASEKHARAIYA,
Director.
